DAILY COURIER. TUESDAY,AUGUST 24, 1858.

10 Reading Matter on every page. The Colors Struck-The Know Nothing Organization Drummed Out of Service.

The leader in the Louisville Journal of yesterday is of immense siguificance to the Southern flank of the American party. The editor of the Lonisville Journal has stood at the door of the temple and heralded to the world the edicts of the Know Notbing leaders, even as the pricatess at Delphi, inspired by the breath of her Deity, belowed forth the oracles of Apollo. His words have heen received by his party as law, and the most ncredible stories, and the most incongruous principles, bave been adopted by his credulous folowers, and blazoned on their banners.

For some time we have insisted that the Know Nothing organization was defunct, that all vitality was extinct, and that the leaders were merely galanizing it until they could sell it out to the Black depublicans for the hide and tallow. Can what we have said be longer doubted? Has not the Journal now plainly confirmed what we bave predicted?

Nothing organization was a failure, our assertions were indignantly denied by the Journal. That organ, in spite of facts that were plain to every sensible and unprejudiced mind, announced that Sam still lived, and the party about bere, of course, responded as was desired. This mockery of a Japanese tuneral was kept up with great solemnity o the infinite scorn of sober thinkers and real pa riots. Consultations were held and bulletins is ued announcing the state of Sam's health. It was told what he intended to do, and what was ex. ected to be done for bim. All the unmeaning comp and ceremonious reverence due a living monarch was paid to this "dear departed hrother," while all the time behind the tapestried bangings of his funeral couch, the trusty leaders were chaffering and dickering for a good bid for the succession. We have time and again burst in upon this by play, and so have, perbaps, helped burry the

hargain to a premature conclusion; at all events, t is consummated. The Journal distinctly admits the inability of he Know Nothing party to cope with the Demoeracy, and clearly and distinctly recommends an mion with the Republican party, under the disguise of a resuscitation of the Whig party. It ow acknowledges the inexpediency of the Know Nothing party in the following words: "To speak rankly, the American movement was made at a most unpropitious moment. The movement has had no practical effect but that of postponing the defeat of its hitterest enemy, the Democracy." *

* * "We cannot be mistaken in the opinion we expressed, that full four-fifths of the Republican and American parties are composed of former Whigs. If so, there can be no difficulty with the nasses of both those parties in getting them to unite iu resuscitating and re-establishing the Whig party".

We bave predicted this, and called the attention of Southerners to the scheme on foot to sell them out to Abolitionists. We were listened to with incredulity. Now, believe us. At all events, let no man hereafter deny that the Know Nothing party is dead. The Louisville Journal confesses the fact, and that confession is high enough authority. The Journal was once an organ of the Whig party, and helped to build up the American mon the ruins of the Whig party. It now proposes to build up the Black Republican upon the ruins of the American party. It sold out the Whigs to Sam, and now proposes to sell out Sam to Sambo. How many Southern Americans are there who, under the disguise of resuscitated Wbigs, are willing to go with the Journal into the free nigger ranks? We were ouce Whigs ourselves, but the Whig party, when we belonged to it, was not a part and parcel of the Abolition Whig party under such circumstances will not. herefore, affect us. THE ATLANTIC TELEGRAPH CABLE. WHAT THE ENGLISH PAPERS SAY.

[From the London Times.] Ily a chain of electric communication, extendg from Trinity Ray, Newfoundland, to this me tropolis, we are infarined that the last attempt to lay the Atlantic Telegraph has succeeded, and that the Old and New World are actually linked together by the magnetic wire. The intelligence is so much the more gratifying as we have been l, in common with the rest of the public-and urely not without very plansible reason to some hing like despair, not indeed of the ultimate suc ss of the undertaking, but of its success with the existing machinery and under conditions ap-parently so unfavorable. It was not unnatural to approbend that a cable which had parted at the om of the sen, and again within a few feet o the stern of the vessel that was paying it out, would never be stretched in safety across the Atlantic. But the feat has been accomplished, and the relish of the surprise is only the greater from previous disappointment and uncertainty.— Although the weather was unfavorable, the cable cems to have heen paid out with the greates

regularity, the quantity of cable discharged from the two ships being the same every day within ten miles. On the first two days the amount paid out by each ship was about 130 nautical miles, or at the rate of between five and six miles au bour. On the 1st of August, each ship paid put 170 nautical miles nut 170 nautical miles, or at the rate of seven nautical miles an hour. On the second this rate was increased to seven nautical miles and fivewas increased to seven nautical nines and eighths, so that the result seems to show that a greater speed can be attained with safety than had been calculated on. We are told that there are good signals between the ships, but of course are good signals between the ships, but of course are good signals between the ships, but of course are good signals between the ships, but of course are good signals between the ships, but of course are good signals between the ships, but of course are good signals between the ships, but of course are good signals between the ships of the same signals are good signals between the ships of the same ships nation as to the rapidity of communication that

We sincerely congratulate the promoters of this reat enterprise upon the triumphant success by which, after so many delays and disappointments, ev have been rewarded. It is difficult so su mighty feat comes upon us not in the gradual and tentative manner in which most scientific exploits have been performed, but with a rapidity worthy of the agent which it employs. The steam engine, the other great discovery of our time, has been perfected little by little, and no one can exactly say when it was that each of the triumbly which it has a recoverible orbitally called.

mphs which it has successfully achieved became ossible. Practice was so far ahead of theory that igh scientific authorities argued strongly against he possibility of results, and were not refuted graph it has been just the contrary. Theory had shown the practicability of the line, but practic lag-ged indefinitely behind it. Instead of proceeding by low degrees, the projectors have leaped at once of a gigantic success. We believe we are correct netwing that 500 miles of telegraph have never efore heen successfully laid under water, and yesahle fully to realize the magnitude and the hardi-hood of the enterpriss. SECOTING AND STARBING ON WATER STREET.-AD affray, about dask last evening, on Water street, below Fifth, between John Dolan and Pat McNeary, resulted in the shooting of the former and stab bing of the other. There are conflicting accounts about the affait, but, as well as we could learn, the tucts are these: Both of these men were drinking, and had disputed previously. Just before its bloody termination, they quarreled near Frank Brannen's cotice house, and McNeary drew his pistol. He was prevailed on to put it up, but drew it again and fired at Dolau, who exclaimed "I am a dead man," and staggered into some house thereabout: There was a crowd around covered that he was stabled in the lower part of his back, the knife severing an artery. More Bank Financiering-Suspected Swindling

Operations.
On Friday last, two men visited Crawfordsville Ia., in a buggy, and tying their liorse in the street, started in different directions through the town, and purchased at the stores and groceries harness shops, and every other place that happened to be open, various articles of small value, for which they tendered in payment bills upon the "Westeru Exchange Bank," of Indianapolis, is sued by a Mr Hamar. The bills were new, being dated in the little international transfer of the dated of the little international transfer of the little lated on the 14th inst., and whenever one of the was donbted, or the person to whom it was offer ed expressed ignorance as to the money, the mer who offered it took from their pockets a copy of "Paddock's Bank Note Mirror," published in thi city, and pointed to the quotation - one and three quarters per cent. discount. In one place they pur chased a barness, in another a pound of tea, a few pounds of sugar, a lot of earthenware -in parcels of everything for which the hills would b

aken in payment.
Suspicion was finally aroused that the mone was not all right, and the two men were arrested. Upon the person of one of them was found three packages of the same kind of money, amounting o about \$800, of the usual denominations from nes to tives. One of the men refused to give his name—the other was supposed to be Johnson, partner of Hamar, who keeps a kind of broker' other opposite the depot at Indianapolis.

A very suspicions circumstance connected with the circulation of the bills, and which involve somebody else in what looks like a grand swind-ling operation, is this :--the bills are dated on the 14th inst.; the copies of Paddock's Bank Note Mirror on the 15th, which were distributed to sub-scribers, in that section, merely names the "West ern Exchange Bank of Indianapolis." no quotation of its value, while the copies of the same "Mirror," of the same date, which were same "Mirror," of the same date, which were found upon the two men arrested, quotes the hills as we have stated above—one and three-quarters per cent. discount! These facts certainly look very suspicious, and point to a deliberate attempt

to awindle on the part of somebody.

Upon the examination of the two men at Crawfordsville, one of them was put upon the stand as a witness, and on being asked by the prosecuting attorney whether he had ever known an instance where money had been quoted at particular rates by hank-note decrease. by hank-note detectors, by being paid for, he de-clined to answer. He was then asked if such ar-rangement could probably be made, and his reply was, "I presume it could." The same man testified that he had seen Mr. Paddock take the bills of the "Western Exchange Bank," in this city, and also Mr. Hamar, of Indianapolis.

The two men were then required to give bonds at \$1,000 each, to auswer before the Grand Jury, in default of which they were committed to jail, followed by a crowd of citizens, who were very much excited in regard to the attempted swindle, and many of whom urged an application 'of the

YELLOW FEVER AT CHARLESTON.-We learn through a friend, who arrived Tuesday evening in the Southern train, that the yellow fever has become an epidemic in Charleston, S. C., and that the people are fleeing in every direction—quite a panic exists. Sixfy passengers from Charleston came through Tuesday and took the Baltimore steamer. We are informed that when the last steamer left Charleston for New York, so great was the rest of the citizens to the contract of the cont was the rush of the citizens to the steamer, that it was impossible to accommodate the crowd. Many were left who were anxious to leave their afflicted city. We would state that the Charleston papers are silent on the subject.—Norfolk Herald,

Suit against the American Telegraph Company. Boston, August 20.—Mr. Clark, of the Boston Conrier, has notified the American Telegraph Co. of this city of his intention to prosecute them for having given his special and private dispatches from Portland to the Traveller new spaper.

The Collision between the Arabia and Europa. We lcarned by telegraph of the collision be ween the steamships Arabia and Europa, off Cape Race. A passenger by the Arabia furnishes the N. Y. Tribune with this account:

At eleven o'clock, when the collision occurre most of the passengers had retired to rest. A the ladies had retired some time before. A fe gentlemen were on the harricane deck, and a half dozen were seated in the salcon, engaged in conversation. Strangely enough, the theme of their remarks was counge exhibited by persons of dif-ferent temperaments and mental peculiarities in limes of great danger. Individual instances of courage and fear were cited in illustration of Queen, Aug. 2 The steam slip, Auglo Sason, rous Inverpool on the 11th inst, has urrived at this port with four days later advices.

The R. M. steamer Canada arrived out on the pinions expressed.

In the midst of this conversation a loud crash th inst., and the steamers North America and

7th inst., and the steamers North America and Kangaroo on the 11th.

Great auxiety existed throughout Europe in regard to the Atlantic cable, in consequence of the delay in transmitting messages. The first regular message from Trinity reached Valentia on the night of Monday, the 9th inst. The speed of its transmission is said to have been greater than that attained during the experiments made at Plymouth and the currents apparently as atrong. The alarge was heard forward, not unlike a clap of thunder, and this was followed by a grinding sound, as of something rubbing against the side of the vessel. The crash startled everybody, and the discussion on physical courage was, by tacit agreement, nostponed indefinitely. Passengers rushed out of their state-rooms in the wildest excitement; of their state-rooms in the wildest excitement; several fainted, and hardly any on board failed to helray signs of deep emotion. Our informant had a lady in his care, and his first object was to secure information as to the nature and extent of the damage. His impression was, that they had struck an iceberg, several of which they had seen the day reviewed. artained during the experiments made at Flymonta and the currents apparently as strong. The shares of the Atlautic telegraph stock were quoted at about nine hundred pounds.

Queen Victoria and her Royal consort, Prince Queen Victoria and her Royal consort, Prince Albert, left for Prussia.

The London Times, in a leading article, favors the annexation of Mexico to the United States.

It was resolved by the directors of the company owning the steamship Great Eastern to receive orders for her purchase or charter, and also to advertise her for sale at auction; in the meantime to region property and the day previous. Going forward, he ascertained that the starboard bow of the Arabia had come in collision with the port bow of the Europa, and

learning that there was no immediate danger, he went below and stated the fact.

According to the usual custom of steamers in meeting one another, the helm of the Enropa, in observing the Arabia's light, was not hard a port; the officer of the Arabia discovered the Europa's lights, and was about to port her helm also, when he saw that if he did so the Arabia would inevita-bly strike the Europa amidships. He, therefore, gave the order to put the helm hard a starboard, which they her bows around, and the payment hich threw her bows around, and thus prevent which three her bows around, and thus prevent-ed a collision, which otherwise would probably have been fatal to one if not both vessels. Capi. Stone at once dispatched a boat to ascertain the extent of the damage sustained by the Europa.— The captain of the Europa requested that the Ara-bia stay by and keep her company into St. Johns, NewYoundland. Capt Stone arms into the scheme. bia stay by and keep her company into St. Johns, Newfoundland. Capt. Stone came into the saloon, stated the facts to the passengers, and informed them of his intention to comply with the request of the captain of the Europa. But the Arabia had hardly got under way when the engineer discovered that the machinery had been damaged, and he was compelled to stop the engines. An examination discovered that the plummer block of the starboard wheel had been broken when the two steamers swung broadside to, aud that the two steamers swung broadside to, and that before they could proceed further the engine must be disconnected with the starboard wheel. This caused a delay of twelve hours, and in the meantime the Europa had proceeded on her way to St. Johns, and as she had probably reached there, Capt. Stone concluded to continue his course to Capt. Stone concluded to cont New York with the port wheel.

Reinforcements were continued to be dispatched from Hong Kong.

city less than three weeks ago, on a journey to Vermont for the benefit of his health, which had become greatly impaired by his incessant attention to the laborious duties of his office, but without any suspicion on the part of himself or his friends that his condition was so critical. His death, therefore, was quite unexpected, and its abrupt announcement by telegraph gave a shock to his many friends throughout the country. Mr. Eddy was a gentleman of much energy of character, and as a telegraph manager, he had no superior. In private life he was uniable and unassuming, a gentleman in his bearing, and a Christian in his daily walks. He was about forty years of age, and a native of Ithica, in this Stale. He was one of the pioneers in the introduction of the telegraph in the East, and huilt the first line cast of Boston, and between that city and Calais, Maine. At the time of his death he was the general manager of between three and four Iron-Stone China, and Earthenware,

Final Sale of Lots DURKEE, HEATH & CO'S IN KENTUCKY CITY!

On Monday, 27th of September, 1858. WILL commence the second and final Sale of Lots in this growing and most interesting YOUNG CITY.

The Trustees, in announcing this sale, feel warranted n assuring the public that at no point in the West can here be found a better chance for safe and profitable

KENTUCKY CITY
Is located on the east bank of the Mississippi river, twenty miles below the mouth of the Oilo river, at the first etypible bighland, and in point of fact, being the mouth of the Oilo river; surrounded by a ligh, tealthy, and fertile vountry, rapidly growing in whit hand population with a salubrious climate, generous, liberal and enlightened society. There wanted but cas arriver feature to take this the most commanding point on the "gree take this the most commanding point on the "gree thater of Waters"—this want was an uninterrupted an general outlet to the Interior, so as to accommodate the KENTUCKY CITY general outlet to the interior, so as to accommodate the interiorance of commodities. That cant is now fully met by the established system of RAILROADS,

which has fixed Kentucky City as the center of a net-work of railroads stretching ont and affording connect-lons in all directions with the interior and with the cities and lakes of the North and East, and ramifying through-out the South and West.

That the public may not be led off hy suspicions that this is a ware sity non-present. That the public may not be led off by suspicions that this is a mere city upon paper, we request you to enquire—to come and see for yourselves.

See the Map—Kentncky City is the northern terminus of the Great Mobile and Ohlo Raliroad—460 miles long. See also our raliroad connection by Union City and along the Nashville and Northweslera Raliroad via Parls and Clarksville to Nashville, 170 miles. Also, by Kenton and along the Memphis and Oblo Road to Memphis, about 160 miles. Also via Jackson, Tenn, Holly Springs, Cantou and Jackson, Miss., to New Orleans, 500 miles also via Corinth, thence along the Memphis and Charleston Railroad to Tuscumbis, Hu.lsville, Chattanoga, Knoxville and the East, and with Atlanta and Savannah, Georgia. Also by the Fulton and Texas Railroad via Georgia. Also by the Fulton and Texas Railroad value Little Rock, through to Arkansas and Texas to the Pacific Ocean.

Also, by the Iron Mountain Railroad to St. Louis, 150 miles. Also by the

Intelligent, enterprising and practical men who will be come and see and investigate in person, will be come. Inced that the extraordinary commercial advantages indiacilities of railroad and steamboat transportation ossessed by Kentucky City secures to this point requi-tes for manufacturing and commercial purposes, which sites for manufacturing and commercial purposes, which must, of necessity, cause it speedily to become the great intermediate city between the NORTH and the SOUTH, at which the productions and manufactures of each section will be connectrated for sale, or to be exchanged for those of the other. those of the other.

The Hon. Post-Master General, in a recent report, says: "No mau can look at the map of this country without his eye finally resting on the moulb of the Ohio as the center of population and commerce of the United States."

States."
The sale is to he made without reserve and in good faith, and there will always be a reliable gentleman on the ground whose pleasure and duty it will be to give all needful information, and answer all written or oral interrogatories. Then let no one permit himself to be led off by rumor, when he facts are so accessible to all. Sale to commence Monday, September 27th, 1858, and continue until all the Lots, numbering upwards of four bundred, are sold. TERMS OF SALE:

Low WATER.—The river is gradually reducing its limits, and the saud bars are proportionately increasing their dimensions, with but three feet len inches water in the caual last evening. By the mark, the old standard, there are less than three feet water, a fall in the previous weaty-four theory. The weather continues quite cool, where The weather continues quite cool, alw too cool for the season - the thermomeler yesterday morning early being down as low as 56, and only at 69 at 11 o'clock, vesterday. This is a chang of over 20 degrees since last week.

Navigation may be considered as pretty suspended above Cincinnati, except a few short

onte packets.

On the sand bars hence to Cincinnati there are not over four feet water, and some boat or other continually aground on Medoc, or Rising Sun bars. The Fred Tron, that had been lodged about Gunpowder, reached here vesterday, and tried to give up her trip, but her freights were engaged at such low rates, that no boat could he induced to take the trip, and she took the canal chute on the lorlorn hope of working her way through.

The Endeavor, which had been aground on a doc, arrived here yesterday on her way South. Accidents - Sicamboat accidents during the low water season are rare on the Ohio; but above

and beyond St. Louis, among the wild rivers, they continue common. The following is from the St. Louis Republican of the 22d:

and as they will be sold at auction to the highest bidder, it offers a rare inducement to buyers, as everything will be sold without reserve.

For CAINO AND MEMPHIS.—The staunch and fast-running low water steamer John Bell, in charge of Capt. Vansickles, returns to Cairo this evening. She has been entered for the low water season, and Captain Van, being an old, experienced boatman, will be sure to put her through safe. She has just made a successful and expeditious trip, and having new engines, which improve her speed, she can make the time like a charm.

The John Gault, it must be borne in mind, is the regular mail and passenger packet for Cairo and Memphis Wednesday. The Arkansas Traveler, now that the rivers

are low and sand bars high, has again made her appearance in our waters. The Boston, Capt. Hildreth, is the mail acket for Cincinnati and the East at noon to-day. The Woodford, Capt. Irwin, left New Or-

BY C. C. GREEN. A rare chance for a Bargain. Percuptory Sale of A rare chance for a Bargain. Percuptory Sale of a Parin containing 140 acres of Land, within 4½ miles of the City of Louisville.

Will sell to the lighest bidder, on Thursday, August 26th, 1855, on the premises, 140 acres of land lying 4½ miles 8 E. of Louisville, and within ½ mile of the Newburg Turnpike, 90 acres of the above land is rich, 50 acres is of a level character, and produces fine grass; in fact, the very best of meadow. The whole is under fence, and about 90 acres in cultivation. The neighborhood is excellent, no better society anywhere; fine water, fine limber, fine soil, fine society. This is one of the most invilling chances to obtain a farm near the city and a fine location, ever offered by me at private or publis sale. To you, friends at a distance, whom I have been posting for months, I say now is your chance. Remember, Thursday, 26th of August, at 8 o'clock, P. M. on the premises.

To the Stock holders of the Southern Pacific Railroad Company of Texas.

GENERAL meeting of Stockholders will be held in Louisville, Kentucky, on the 24th day of August next. Business of great importance will be brought before the meeting demanding the attention of all interested. The enterprise promisea all that has been claimed for it by its most enthusiastic and extravagant advocates; its past management has been marked by errors of the grossest character, but it may yet, by wise counsels and good management, in future be made to meet the largest expectations of its friends. This is "the shortest, best, and cheapeat route" connected by railway of the Atlantic and Pacific oceans. The press throughout the country will render this enterprise and the scattered stockholders over twenty-six States of the Union a great service by notleng this call for a convenion of stockholders on the 24th day of August in the city of Louisville, Ky.
